

NORFOLK & WESTERN HEAVYWEIGHT PASSENGER CARS

HO SCALE
Arriving in 2009

We are working from the builder's drawings of these long sought-after cars. The models will feature four- or six-wheel trucks as appropriate, glass, diaphragms, shades, interior partitions and couplers, along with expert factory paint. Very few will be available in each class. These Norfolk & Western heavyweight passenger cars will have full underbody details.

As usual, we are indebted to those folks who publish the information and photos we need. We urge you to buy their books and photos.
